It's that time of the year again ... and our summer edition sees Chopstick in collaboration with our homeboy Till von Sein! After their magnificent „Ten EP“ last July the duo brings us another smashing EP by the name of „Pure 18“.

On A1 we find „You Don't See“. The way the two keep working the filter on the sample brings back memories of those good old french house nights. Up and down, round and round ... till your dancing feet hurt. The whole SUOL crew have been spinning this one from the very moment it came out of the lab.

On A2 we have "What's Going On". The complex beat shows the typical Chopstick & Till von Sein programming, moving your hips from the first second. Then slowly the piano loops comes in ... in hiding for a while, till it finally show its face.

Last but not least we present two versions of „Description Of A Smile“! A full on Groove Machine. Congas, nice uplifting vocals and a theme that gives us a glimpse of their past. Guitars accompany the beat till the bomb finally drops... you might know this one!?

For those who wanna add a little deepness to this sure shot we have a digital exclusive Dub Mix. Best serve hot...
